

Salute Cartridge

Application:

Announcement of sunrise and sunset during the Ramadan in Islamic countries.

Also used for international morning/evening colours and welcoming ceremonies.

Description:

The Salute Cartridge consists of an outer casing either from aluminium or brass and is loaded with a flash/sound composition and hermetically sealed at the top of the cartridge case. Upon ignition the composition will combust with a loud noise 169 dB (A).

Operation:

The operation is dependant upon the instruction to handle/load the salute canon.
